

Request for Proposal Town of Hampstead

The Town of Hampstead Fire Department is accepting proposals for a Hydraulic Rescue Tool and associated equipment. Packages are available in the Administrative Assistant's Office or at www.Hampsteadnh.us.

All proposals should be submitted in a sealed envelope marked "**Fire Department Hydraulic Rescue Tool**" and addressed to:

Town of Hampstead
11 Main Street
Hampstead, NH 03841
Attention: Sally Theriault, Administrative Assistant

Proposals must be received no later than 4:00pm on Monday May 13, 2013

Proposals will be opened during the Board of Selectmen's meeting on May 13, 2013. Proposals cannot be withdrawn for a period of ninety (90) days. The town reserves the right to reject any or all proposals and take such action as may be deemed necessary in the best interest of the town.

Contact Person: Should any questions arise, please contact Captain Will Warnock at 603-329-6006 or HFDFPB@comcast.net.

This RFP is to bid on a Hydraulic Rescue Tool System and Associated Equipment that is compatible with the Hampstead Fire Department's existing Hurst system. Please refer to the following:

Hydraulic Spreader – The spreader must be compatible in all manners with a Hurst 5,000 psi hydraulic pump/power system. The spreader must be equipped with the Streamline couplings and have a thirty (30) foot detachable hose that is capable of utilizing the Streamline couplings.

The spreader must have a minimum spreading distance of twenty-eight (28) inches and a pulling force of up to 6,969 pounds. The total weight must not exceed 49 pounds and the spreader must have a dual action pilot valve.

Hydraulic Cutter – The cutter must be compatible in all manners with a Hurst 5,000 psi hydraulic pump/power system. The cutter must be equipped with Streamline couplings and have a thirty (30) foot detachable hose that is capable of utilizing the Streamline couplings. The cutters must have a minimum blade opening of 7.3 inches and the weight cannot exceed 47 pounds.

Hydraulic Pump/Power Unit – The power unit must be compatible in all manners with a Hurst 5,000 psi hydraulic pump/power system. The unit must be equipped with Streamline couplings. The unit must have a 3 HP, 4 stroke gasoline powered Honda engine. The weight of the unit must not exceed 61 pounds and the dimensions shall not exceed 13" X 19".
