***Old Business***

The Committee discussed the recent BOS approval for the "bag on top of toter" trial at the Dec 27 town meeting. Committee members reviewed the costs associated with this program, which include tipping fees and admin fees, and agreed that the price of \$7 is appropriate to cover the costs. The sticker on the bag would clearly note that the resident takes full responsibility if bag contents spill. The goal is to have this additional bag trial period run April 1 through September. In September, an assessment will be made by the Committee and a recommendation to the BOS will be given on how to proceed. C. Kowalski made a motion to charge \$7 per bag for the trial selling of these bags, C. Cipriano seconded
